

I AM YOU performers shared their stories on stage for three sold-out shows in February!

## MEET TOMMY

Tommy Cunningham received Medicaid funding in February and moved into his first apartment after meeting his housemate and searching for a place. He attends classes in the Lifelong Learning program, continues to participate in Self-Advocates of Monroe County and is enjoying his new community. "I am really liking it," Tommy says of living in his own apartment, but adds that he does miss his friends in Bedford.

## MEET JUSTIN

Justin Lovell entered the new program Pre-Employment Transition Services when his unpaid school work study position at Jack's Donuts ceased to be supported because of summer break. Pre-ETS was able to assist him in continuing to gain the work skills needed for employment. Because of his growth, when a position became open at Jack's this summer, Justin got the job and is now being paid for his work.

## MEET SABRINA

Sabrina Wicks is a valuable part of the Bloom Magazine distribution crew. She manages route lists by reading off business names, addresses and box quantities. She watches her coworkers to make sure they are safe and can navigate obstacles. She also encourages them to keep going and get the job done. Sabrina says she has learned the value of teamwork and being productive, staying busy and accomplishing a task.
